

# *Gems of Montgomery County*

Jerry and Cindy Smith

*Gems of Montgomery County* was a two year project. Indiana's Montgomery County is full of rich history and quiet, scenic beauty. This book is a compilation of 67 small plein air paintings including some brief historical information. Each plate represents a 6 x 8 oil done on location. The paintings are done impressionistically. Many of the paintings depict Sugar Creek which changes constantly in all

seasons depicting many moods.
